Title	After Applying a filter, the sorting “Price: Low to High” is not working correctly
Description	After applying a filter for a vehicle type and clicking to show the results, the Sorting from price low to high is not showing the vehicles in the correct order. In the example it is showing a vehicle that has Estimated Drive Away Price of A\$ 83,200.00 and Weekly Rental Amount of A\$520.00 first then the one that has Estimated Drive Away Price A\$81,600.00 and Weekly Rental Amount of A\$510.00. It’s possible that the sorting is considering the Full Amount instead the current offer one.
